COMPANY AZIENDA

The industrialised art of Tessaro.

This company was born with the founding partner, Mr Adriano Tessaro, in 1962. Many years have passed by and the following generations have continued the work of the entrepreneur with passion and commitment, maintaining the excellent reputation of the brand and the Italian integrity, the foundation of quality, sophistication and uniqueness of our iron products that are mass-produced and custom-made upon request.

Due to the possibility to produce large quantities of products, we can also manage very large sites, ensuring reliability and timely delivery.

Italian raw materials and the top training of our iron craftsmen, distinguish our creations throughout the world and we have been recognised for years as a reference point for wrought iron manufacturing.

The artistic core of the handmade sector.

In 2004, our workshop was born from the union of skilled craftsmen and entrepreneurs, both with the desire to continue the art of wrought iron.

In many products, from wrought iron internal balustrades to external gates, the individual elements are composed with the skill of our blacksmiths.

In the workshop, our craftsmen follow the handmade manufacturing and aesthetic finishing of the products for private residences, villas, hotels, historical buildings and many other areas, relating with private customers and the studios of architects, designers and contractors.

L'arte industrializzata di Tessaro.

Questa azienda è nata con il socio fondatore, il signor Adriano Tessaro, nel 1962. Sono passati molti anni e le generazioni successive hanno portato avanti il lavoro dell'imprenditore con passione e impegno, mantenendo l'ottima reputazione del brand e l'integrità italiana, fondamento della qualità, della ricercatezza e dell'unicità dei nostri prodotti in ferro, realizzati in serie e, quando richiesto, su misura. Grazie alla possibilità di realizzare grandi quantità di prodotti, possiamo gestire anche cantieri molto grandi, garantendo affidabilità e puntualità nella consegna. Le materie prime italiane e l'alta formazione della nostra maestranza, artigiani del ferro, contraddistinguono le nostre creazioni in tutto il mondo e ci identificano da anni come punto di riferimento nella lavorazione del ferro battuto.

Il settore artigianale dal cuore artistico.

Dal connubio di maestranze artigiane e di imprenditori, entrambi con il desiderio di portare avanti l'arte del ferro battuto, nacque nel 2004 il nostro laboratorio artistico. Nei tanti articoli, dalle ringhiere interne in ferro battuto alle cancellate esterne, i singoli elementi sono composti con maestria dai nostri fabbri. All'interno del laboratorio, infatti, i nostri artigiani seguono la lavorazione artigianale e la rifinitura estetica degli articoli destinati a residenze private, ville, alberghi, palazzi storici e molti altri spazi, rapportandosi con clienti privati, studi di architettura, designer e costruttori.

ENTREPRISE КОМПАНИЯ

L'art industrialisé de Tessaro.

Cette entreprise est née par la volonté de son membre fondateur, M. Adriano Tessaro, en 1962.

Depuis, les générations suivantes ont continué le travail de l'entrepreneur avec passion et engagement, tout en conservant l'excellente réputation de la marque et l'intégrité italienne, fondement de la qualité, du raffinement et du caractère unique de nos produits en fer, fabriqués en série et, si nécessaire, sur mesure.

Grâce à la possibilité de produire de grandes quantités de produits, nous pouvons également gérer de très grands chantiers, tout en garantissant fiabilité et ponctualité dans la livraison.

Les matières premières italiennes et la haute formation par notre corps de métier, les artisans du fer, caractérisent nos créations à travers le monde et nous identifient depuis des années comme un point de référence dans le travail du fer forgé.

Le secteur artisanal au cœur artistique.

En 2004, notre laboratoire artistique naît de l'union entre des ateliers artisanaux et des entrepreneurs, dans le but de développer l'art du fer forgé.

Dans de nombreux articles, des balustrades intérieures en fer forgé aux barrières extérieures, les éléments individuels sont composés de main de maître par nos forgerons.

Au sein du laboratoire, nos artisans suivent, en effet, le travail artisanal et la finition esthétique des articles destinés à des résidences privées, villas, hôtels, édifices historiques et à de nombreux autres espaces, tout en ayant un contact direct avec des clients privés, des bureaux d'architectes, des designers et des entrepreneurs.

Индустриализированное искусство Тессаро

Предприятие было основано Адриано Тессаро в 1962 г.

Прошло много лет, и последующие поколения продолжают работу предпринимателя с любовью и рвением, сохраняя превосходную репутацию и целостность итальянского бренда - фундамент качества, изысканности и уникальности наших изделий из железа, как серийного производства, так и по индивидуальным размерам.

Благодаря производственным мощностям, мы способны управлять большими строй объектами, гарантируя надежность и пунктуальность в поставке товаров.

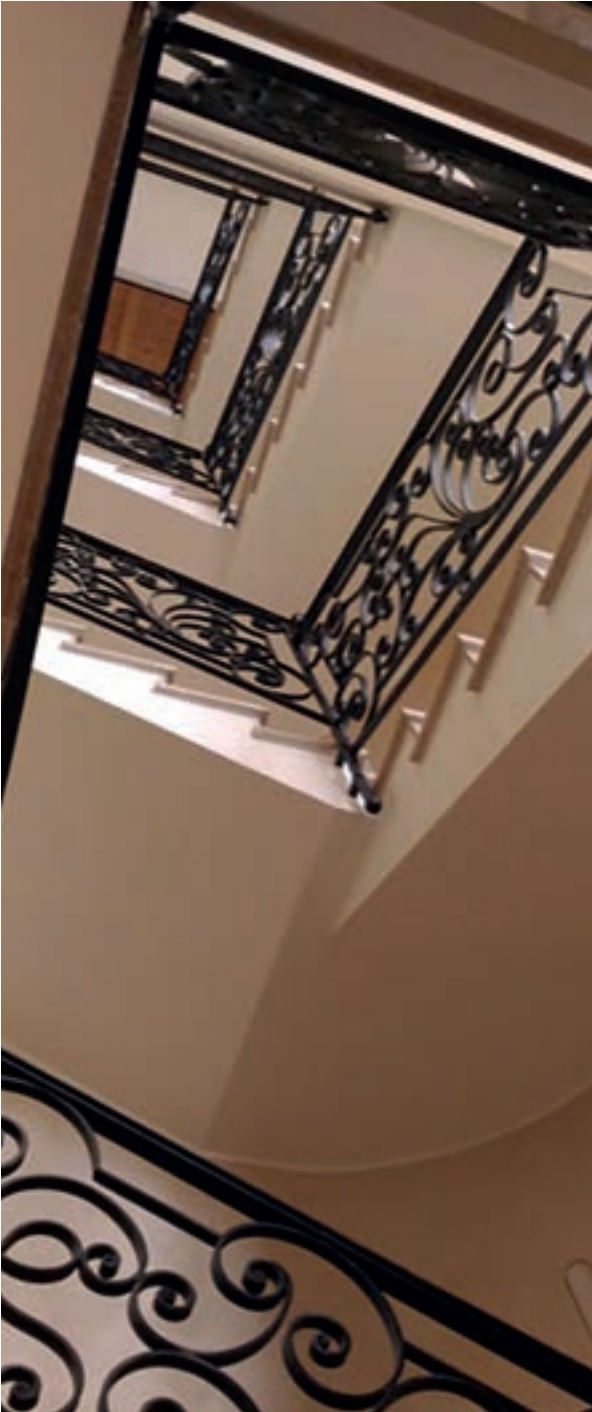

Сырье итальянского происхождения и высокий уровень квалификации мастеров железного дела, отличают наши творения во всем мире и на протяжении многих лет определяют нас как ориентир в работе с кованным железом.

Ремесленный промысел из сердца художника.

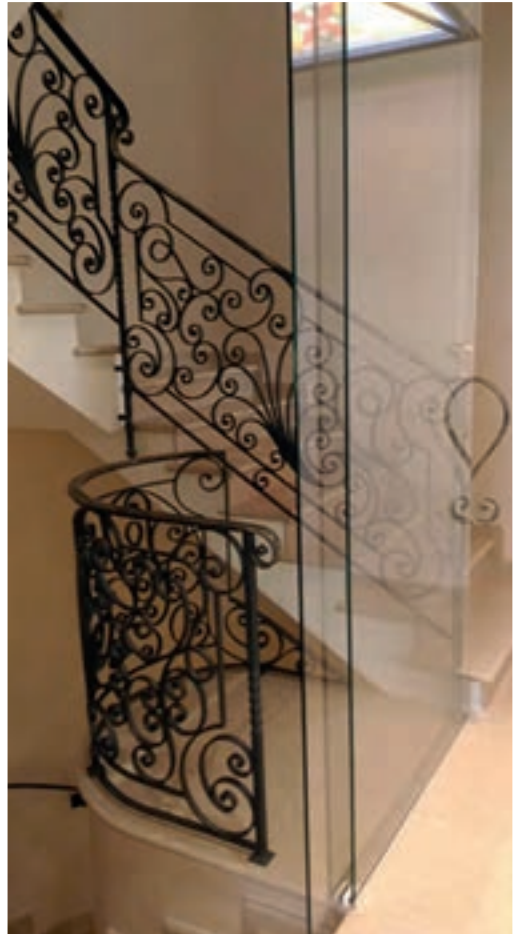

Наша мастерская художественнойковки родилась в 2004 г., благодаря союзу ремесленного мастерства и предпринимательства, в желании следовать искусству художественнойковки.

Во множестве изделий, от внутренних ограждений из кованого железа до ворот, каждый отдельный элемент мастерски скомпонован нашими кузнецами.

В мастерской наши специалисты занимаются ручной работой и эстетической отделкой изделий, предназначенных для вилл, гостиниц, исторических зданий и многих других объектов. В качестве клиентов выступают как частные лица, так и архитектурные студии, проектные бюро и строительные подрядчики.
